

## Especificaciones del proyecto final

### Objetivos del proyecto

El proyecto final tiene como principal objetivo consolidar los conocimientos que se adquirieron durante las clases desarrolladas en el taller.

St. Xavier's Physics Council- Nepal (SXPC- Nepal) is going to organize a tutorial session on “*A short introduction to  $\text{\LaTeX}^1$  and it's importance*” on Tuesday, July 18, 2017 for all Bachelors' and Masters' students studying Physics at St. Xavier's College. Interested candidates are requested to register visiting CRs' of their respective classes before Monday, July 17, 2017.

Instructor: Damodar Rajbhandari, B.Sc. Physics 4th year

Registration fee: Free

Date: July 18, Tuesday

Time: 11:00 am - 1:00 pm

Venue: Loyola Conference Room, St. Xavier's College

### Main Objectives:-

- To give a short introduction to document preparation system (i.e.  $\text{\LaTeX}$ ) and it's importance.
- Setting up the  $\text{\LaTeX}$  compiler and editor.
- Understanding the basics of  $\text{\LaTeX}$ .
- Key steps to know on how to write scientific article and thesis.
- Understanding the  $\text{\LaTeX}$  packages.
- Understanding the default design of the  $\text{\LaTeX}$  document and how to modify it.
